

LEGEND

ON YOUR TURN

1. Play your Traits: You can add Trait cards from your hand to existing Species and/or start new ones. You may not play Trait cards after this step unless another card effect allows you to do so.

2. Nature Calls: Draw a card from the deck and show it to everyone. If it's an Event card - face it immediately. Otherwise - take it to your hand.

3. After Nature Calls: You may play one Event from your hand on yourself or an opponent.

4. Ending your turn: Draw or discard so you have a number of cards in your hand equal to your Resource Number (default is 7).

Note: You can play Interaction cards at any point during the game (even on opponents' turns) unless stated otherwise on the card.
